Daniel Johnson

JUNIOR WEB DEVELOPER

Profile

Enthusiastic programmer looking to apply for Junior Front End Developer position at Codices. Theoretical knowledge of HTML, CSS, JS and React Js. Seeking to further develop my skills as a web developer and be part of a team that can accelerate my development.

Education

BSc Psychology , University of Plymouth, Plymouth

OCTOBER 2012 — JUNE 2014

After conducting a literature review in implicit priming, the research suggested possible effects of implicit priming occurring with no association formed to novel stimuli. Which led to testing the hypothesis that category learning occurs during implicit priming.

Analysed data with various tools such as

- Python panda, num.py
- Mad excel VBA macros to read CSV's
- Performed analysis with SPSS and Strata
- PLC programming to collect fMRI, ERP, MEG, reaction time, and electrophysiological (e.g. single neuron) data

Investigated, the N400 signal during deception with the hypothesis that as a result of task switching occurring(constructing a lie) there would be an increase in this signal.

HND Applied Psychology Truro, Truro and Penwith College, Truro

SEPTEMBER 2010 — APRIL 2012

Investigated, the fluency of fonts and word retention in a learning environment.

Studied

- Educational Psychology and Research methods
- Communication and Persuasion in advertising
- Clinical Psychology and Biological Psychology
- Applied cognition and design
- Performance Psychology and Social Psychology

Key Projects

Web-design Capstone

- Built a full-screen video portfolio with about, blog and portfolio page
